MAKE A BIG GREEN FOOTPRINT

Fife Coast & Countryside Trust is an independent environmental charity. Our vision is to ensure everyone has the opportunity to experience Fife's coast and countryside.

Currently around 80% of our total income comes from statutory sources. This limited and ever-decreasing funding only allows us to maintain the sites in our portfolio; however, we want to do much more and develop new opportunities so we can achieve our aims. **To do this, we need your help.**

Supporting our work through The Big Green Footprint Scheme, allows your business to invest in the future of Fife's wonderful coast and countryside, so that the next generation can benefit from the wonderful experiences it offers.

Why support us?

As a local business with a social and environmental conscience, you know you have a responsibility to care for the environment, your staff and the community you operate in.

Your support for us will demonstrate to clients, staff and the local community, your commitment to delivering your Corporate Social Responsibility policy. With your support, we can:

- Conserve and **Enhance the Environment**
- **Involve your Staff** in caring for the coast and countryside
- Create **Opportunities for Communities** to experience the best of Fife

There is a variety of ways your company can support the work of **Fife Coast & Countryside Trust** and make your own **Big Green Footprint**, regardless of the size of your business.

Donations

Like every charity, we need financial support first and foremost, so we welcome all cash donations, but we also value your in-kind donations where they can offset identified real existing costs.

Volunteers

We have a wide range of volunteering opportunities available and in return for a donation to cover the associated costs, we can organise a team building experience for your staff. Previously corporate groups have helped us plant wildflowers and trees, clean bird nesting boxes, repair the coastal path and thin out woodlands. Every single volunteer really does make a difference.

Fundraising

Why not organise an employee fundraising challenge event, encouraging your staff to walk, cycle or run in the great outdoors in support of Fife Coast & Countryside Trust? Not only will this raise much-needed funds, but it will help you achieve the goals of your staff health & well-being programme. We would be happy to help with planning your company's event.

Sponsorship

Sponsorship packages can be tailored to suit your company's requirements. Why not sponsor a family event in our annual events programme or commit longer term by sponsoring a stretch of The Fife Coastal Path?

In return for your support, we can offer a variety of benefits ranging from recognition in our communications, to talks and walks by our rangers.

Help us care for and conserve Fife's coast and countryside so that we can all benefit, as will future generations, from the opportunities it offers to enjoy healthy activities in the great outdoors and engage with the natural world.
A sound investment for your business with a very tangible return.
